Doctor CHISHOLM'S Anti-Bilious Pills,

OF A QUALITY

Superior to any thing of the kind ever offered as a

GENERAL MEDICINE,

IN THIS COUNTRY,

Now prepared from a recipe of the celebrated *Dr. Chisholm*, who, from a long residence in the West-India islands, has been enabled to favor the world with the most complete history, and most approved methods of curing all the BILIOUS DISEASES of those warm climates

This extraordinary medicine, which now for the first time is finding its way into general practice, has properties in the highest degree superior to the mercurial nostrums so frequently recommended by the name of Anti-Bilious Pills. The extraordinary powers of this medicine as a solvent and evacuant of bile, is without example; never producing debility, or injuring the health, in the smallest degree, of the most delicate child, or weakly female.

The BILIOUS HEAD-ACHE, so much complained of in this country, and in the neighbourhood of rivers, is often removed by a single dose, which, to a strong man, is only five pills, and to a weakly woman, three. The same dose will generally remove the most excrutiating pains of the cholic, like a charm, by causing the bile to pass downwards in the course of an hour or two.

Two or three Pills taken an hour before dinner, and repeated every third day, will effectually remove those diseases arising from flatulency and indigestion, and by persevering in the use of them for a considerable time, the appetite will be improved, and strength and vigor will return.

Two Pills taken at bed time, with a cup of penny-royal tea, and repeated every second night, will effectually remove *Rheumatic pains*, wherever seated.

A single Pill, taken every fourth hour with a cup of flax-seed tea, will cure *Pleurisy*, promote expectoration, and relieve coughs and colds.

In CONSUMPTIVE CASES and *diseases of the liver*, no medicine ever yet discovered, has been known to perform such cures. Two Pills, taken every third morning, will be found sufficient, unless costiveness prevails; in which case, the dose may be increased according to the strength or constitution.

The *Dysentery, Croup*, and *Summer Complaint* on children, are soon relieved by a few doses. A single Pill to a child of 6 years old, and the dose increased according to their strength and age.

In *Asthmatic* or *Phthisical* cases, where the laborious breathing and great oppression, with faintings, are fast sinking the patient to the brink of the grave, a few Pills, taking one every hour, with fennel or pepper-mint tea, will often enable the patient to walk about in a few hours.

The above valuable Medicine is Sold ONLY in Pittsburgh, by

J. P. & J. W. SKELTON

At their Wholesale and Retail Apothecary and Drug Store.

From a London paper of Dec. 25.

OFFICIAL DECLARATION OF THE ALLIED POWERS.

The French government has ordered a new levy of 300,000 conscripts. The motives of the Senatus Consultum to that effect contain an appeal to the allied powers. They therefore find themselves called upon to promulgate anew, in the face of the world, the views which guide them in the present war; the principles which form the basis of their conduct, their wishes and their determination.

The allied powers do not make war upon France, but against that preponderance, haughtily announced; against that preponderance which to the misfortune of Europe and of France, the Emperor Napoleon has too long exercised beyond the limits of his empire.

Victory has conducted the allied armies to the banks of the Rhine. The first use which their Imperial and Royal Majesties have made of victory, has been to offer peace to his majesty the emperor of the French. An attitude strengthened by the accession of all the sovereigns and princes of Germany, has had no influence on the conditions of that peace. These conditions are founded on the independence of the other states of Europe. The views of the allied powers are just in their object, generous and liberal in their application, giving security to all, honorable to each.

The allied sovereigns desire that France may be great, powerful and happy; because the French power, in a state of greatness and strength, is one of the foundations of the social edifice of Europe. They wish that France may be happy—that French commerce may revive—that the arts, those blessings of peace, may again flourish; because a great people can only be tranquil in proportion as it is happy. The powers confirm to the French empire an extent of territory which France under her kings never knew; because a valiant nation does not fall from its rank, by having in its turn experienced reverses in an obstinate and sanguinary contest, in which it has fought with its accustomed bravery.

But the allied powers also wish to be free, happy and tranquil, themselves.—They desire a state of peace, which by a wise partition of strength, by a just equilibrium, may henceforward preserve their people from the numberless calamities which have overwhelmed Europe for the last twenty years.

The allied powers will not lay down their arms until the political state of Europe be re-established anew—until immovable principles have resumed their rights ever vain pretensions, until the sanctity of treaties shall have at last secured a real peace to Europe.

The following proclamation was issued by his excellency the prince of Orange, immediately on his landing in Holland.

PROCLAMATION.

William Frederick, by the Grace of God, Prince of Orange and Nassau, &c.

To all those who these presents shall see or hear read, greeting. Be it made known:

Dear Countrymen!—After nineteen years of absence and suffering, I have received with heartfelt joy, your unanimous invitation to come amongst you.—I am now arrived, and, I trust, under Divine Providence, that I shall be the means of restoring you to your ancient independence and prosperity. This is my sole object, and I have the satisfaction to assure you that it is equally the object of the allied powers. It is in particular the wish of the Prince Regent of the united kingdom of Great-Britain and Ireland, and of his government. Of this you will be convinced by the unanimous assistance which that powerful country is immediately going to give you, and which, I trust, will lay the foundation of those old and intimate ties of friendship and alliance, which have so long made the happiness of both states.

I am come disposed and determined to forgive and forget every thing that has passed. We have all but one common object, which is to heal the wounds of our native country, and to restore it to its rank and splendor amongst nations.—The revival of trade and commerce will, I trust, be the immediate consequence of my return. All party spirit must be for ever banished from amongst us. No effort shall be wanting on my part, and on that of my family, to assert and secure your independence, and to promote your happiness and welfare. My eldest son, who, under the immortal lord Wellington, has proved himself not unworthy of the fame of his ancestors, is on his way to join me: unite, therefore, dear countrymen, with heart and soul with me, and our common country will flourish again, as in the days of old, and we shall transmit unimpaired to our posterity the blessings we have received from our ancestors.

Given under my seal and signature, December 1, 1813.

(Signed) W. F. Pr. of ORANGE.

By command of his Highness,

FROM THE NEWBURYPORT HERALD.

VOICE OF THE PEOPLE.

NEWBURYPORT MEMORIAL

At a very full town-meeting held at the Town Hall yesterday, the following memorial to the legislature was voted, with a few dissenting voices; and those principally were office holders, dependants, and expectants of offices under the General Government. The body of the people, who do not draw their subsistance from the National Treasury, were unanimously in favor of the memorial.

To the Honourable Senate, and the Honourable House of Representatives, of the Commonwealth of Massachusetts.

WE, the inhabitants of Newburyport, in the County of Essex, qualified to vote in public affairs, in town meeting assembled on the 7th Feb.

Respectfully represent,

That although we have full confidence that our sentiments and feelings have been faithfully expressed by our Representatives in your honorable body, and in the Congress of the United States, yet in a crisis like the present if there is a mode of expressing more forcible and emphatic; such a mode we are constrained to adopt.

We are not now assembled to consider ordinary questions respecting the well being of the republic; we are called in common with our fellow citizens of the eastern states, to consider whether the republic still exists, or whether in the government under whose oppressions we now suffer, we have any rights, privileges, and interests, worth a struggle to maintain.

It is not our intention to enumerate in detail the parts of that system of infatuated national policy, which, in so short a period, has wasted the substance and prostrated the character of the nation:—which has paralized the hand of labor and industry, and converted into a theatre of crimes and wretchedness, a country which lately was, and still might be the most prosperous and happiest portion of the Globe.

On this head, the language of petition and remonstrance addressed to the government of the United States, the guilty authors of our calamities, has been exhausted in vain. The archieves of your honorable body have been swelled with our complaints. Your appeals in our behalf have been equally unavailing. The voice of an injured and suffering people has been treated with neglect and contempt. The national government, regardless of our rights, and insensible to our sufferings, and those of the nation, still pursue its melancholy and destructive career.

The war with G. B. still proceeds with unrelenting obstinacy.

A war waged without just cause, and without any adequate object. A war in which a christian nation is drawn into a contest unchristian and inhuman; odious in the sight of God and man, in which no pious man can offer his prayers, no patriot his wishes for success. A war of invasion, originating in falsehood and fraud, conducted throughout with worse than idiot folly and imbecility; in all its stages stamped with the most unequivocal signatures of divine pleasure.

In a war of this character the lives of thousands of our citizens have already been sacrificed, and thousands of our hardy and intrepid mariners have been compelled to quit their country, and to seek employment in the service of foreign nations for subsistence.

In support of such a war all classes of the citizens in the eastern states are involved in calamities hitherto unparalleled; the ordinary employments and means of subsistence of multitudes have ceased, and with the exception of a few wealthy individuals, the people are called to submit to the privation not only of luxuries, but of articles which from habit have become necessaries of life.

Nor amid all our sufferings and privations have we even the poor consolation to believe that they will be but temporary, or that they have contributed in any degree to prevent or diminish the debt created by the war; on the other hand, under the present system, we can see no prospect of their end or their alleviation.

Although scarcely arrived at the close of the first act of the horrible drama, by the most profuse and wanton expenditure of publick monies, the mass of debt already incurred exceeds the whole debt of the U. States at the close of the late revolutionary war; and we have too much cause to fear, that, at the close of this war, even if it should arrive at an early period, it will leave the nation with an intolerable load of debt; a sad inheritance of taxes and poverty to succeeding generations.

In such a debt have we not reason to apprehend the extinction of republican liberty, and the destruction of that happy equality in circumstances, privileges and enjoyments of the citizens, which has hitherto constituted the glory & strength of the New England republics. In the stockholders of such a debt shall we not realise an odious, haughty aristocracy, to support whose luxury the landholder, the trader, the artisan, and the other classes in society must be doomed to perpetual and insupportable bondage.

But as though this war was not intrinsically and in its necessary incidents, sufficiently burdensome to the people of this Commonwealth; the late act interdicting Commerce, even between citizens of the same state, by which a considerable portion of our people are deprived of their ordinary, and in many instances, their only practicable means of obtaining their necessary supplies seemed alone wanting to close the scene of cruelty and oppression.

We reprobate this act as violatory of the Constitution; we reprobate it because it vests despotic powers in the President, and raises up petty despots in every corner of the land; and because it imposes wanton restraints upon freemen, calculated to irritate them to desperate resistance, or to crush their spirits, & convert them into slaves.

In this unhappy and almost hopeless condition of our beloved Country, we rejoice that we have in our state government, a constitutional barrier against acts of violence and oppression, from whatever source they may proceed. We rejoice in the late public expressions of the supreme executive and of the legislature to recognise the principles and the spirit which formerly achieved our liberty and independence, and which we trust, will now preserve the sacred deposit. If the liberties of the American nation are doomed to perish, we will indulge the hope that under guardianship, the Commonwealth of Mass. even if alone, will defend to the last inheritance purchased with the blood of their fathers.

We therefore humbly and earnestly pray your honorable body, as you would preserve the tranquility of the people of this Commonwealth, prevent the horrors of insurrection, and the fatal effects of individual resistance, to acts of oppression, to devise and adopt, without delay such measures as to you in your wisdom shall appear more expedient and efficacious, to secure to the citizens of this Commonwealth the enjoyment of their Constitutional right of mutual intercourse, by water as well as by land, of which they have been thus unjustly and wantonly deprived.

And we the people of Newburyport, do hereby solemnly pledge ourselves to your honorable body, and to our fellowcitizens to support, with our lives and fortunes, such measures as shall be adopted by you for the redress of our grievances, and in defence of our rights; and we will be prepared at a MOMENT'S warning to obey the call of duty and our country.

Newburyport, Feb. 7, 1814.

From the Boston Centinel of Feb. 12.

POSTSCRIPT.

COMMODORE RODGERS.

"*New Port, (R. I.) Feb. 10.*

"On Tuesday evening passed this harbour for Bristol, the Swedish brig Pelee, 19 days from St. Barts. Capt. Rathbon, of this town, who came passenger in the Pelee, informs us, that he saw a Barbadoes paper, which stated, that Com. Rodgers had captured, Ten Sail of the London fleet; all of which he burnt, except one, which he gave up to the prisoners, after taking out the most valuable part of their cargoes.

"The Barbadoes papers contained the names of the vessels captured; and further states, that previous to Com. Rodgers' capturing those vessels, he fell in with a ship which had been captured, with a number of others, by a French frigate. Com. R. threatened to send them to the U. S. to retaliate for the conduct of the British government relative to the Cartel which he sent into England on his former cruise; they were, however, permitted to proceed.

"Only about 30 sail out of nearly 200, which sailed under convoy from London, had arrived at Barbadoes; and it was apprehended 50 or 60 had been captured or lost in the gale which had dispersed the fleet. It was conjectured in Barbadoes, that Com. R. had gone in pursuit of the Cork fleet, of 60 sail, under convoy of two sloops of war; accordingly three frigate had been dispatched in pursuit of him."

We understand, that the whole of the Pennsylvania Delegation to Congress, have signed and presented to the President a remonstrance against the appointment of Dr. Leib as Post Master of this City.

AMSTERDAM, *December 7.*

This country has become one of the allies of Britain. The public prints will inform you better than I have time to do, my whole counting house being from time to time under arms, and this is the case with almost every one. Suffice it for the present to tell you, that this country will again be a free and independent state. The prince of Orange is at the Hague, has been here, and has been proclaimed by all the people as sovereign prince of the Netherlands. Such a change will astonish you as it did us and will do the whole world. Before we had any assistance of foreign troops, this city began to proclaim her independence. The people were like frantic, running up and down the streets with orange ribbons; they burnt all the custom houses (douanes) and pillaged the house of the French chief of the police, &c. &c. It was no easy task for the few citizens who had arms to prevent their rage from going further. The French, when they saw the storm come on, left us, taking along with them all the large and small guns, and leaving us unprotected against the mob. It had however a good effect, as we got rid of the French without going to battle with them. 2400 young men of our citizens are now under arms. I and other old standards guard their wards.

Since we have received assistance from foreign troops, say Russians, Prussians, &c. the French are drove from one fortress to another, so that I hope, with the help of God, they will be drove into their own country this winter, and the allied powers march in a short time to Brabant, where the public opinion is already unfavorable to France. The greatest of all tyrants ever known, and who inflicted universal misery on all Europe, sits yet on his trembling throne, from which, to all appearance, he will soon be kicked down, like one of his commanders at Arnheim, who was thrown from a garret window into the street. I hope now, my friend, that your government will be wise, open their eyes, and protect the interest of their country by making peace with England.

NEW YORK, *Feb. 14.*

THIRTY TWO POUNDERS.

Several guns of this description, left this City on Saturday and yesterday for lake Ontario.

EXTRACT OF A LETTER,

"*Plattsburgh, Feb. 9.*

"Two regiments have already gone in sleighs from French Mills to Sackett's Harbor. Cannon, mortars, bombs, and chors, sails, baggage, provisions, small arms, ammunition, and the sick, are continually arriving here from French Mills, from whence the whole army will go as soon as every thing belonging to it is gone. The whole of the sick, and those not fit for active service, and part of the artillerists will come here I presume; but whether any effective infantry will, I have my doubts: I am more inclined to suppose she well will go to the west. The movements of the army at French Mills, prove to me beyond all question, that the plan for the next campaign is almost critically right. It will therefore succeed. I had supposed it was impolitic to build a navy on lake Ontario, but, since we have built some ships there, and in all probability, the war will be at an end in 4 months, it may not be improper for the U. S. to exert the whole of their energy, both by land and water, to gain possession of as much of the enemy's territory as possible."

Arrival of the President.—Yesterday afternoon, the frigate President, Com. Rodgers, arrived within the Hook, the term of her cruise having expired. By the Active cutter, from the ship, we learn, that she has passed most of the West-India Islands, lay off Charleston 48 hours, and was chased off that port by a 74, 2 frigates, and 2 sloops of war.

Yesterday morning, off Long Branch, fell in with a 74, and a frigate, the former having been four hours to windward of the President. Com. Rodgers has been out 70 days; fell in with two French frigate; captured three merchant vessels, which were sunk, after taking out their cargoes, and has brought in 80 prisoners.

WASHINGTON CITY, *Feb. 17.*

General Winder left here to-day on his return to captivity in Canada. He is pledged, by the articles of his parole, to report himself at Quebec on the 17th of March—It does not appear, as was at first reported, that he possessed any authority to tender to the government, offers for an armistice, or even an amelioration of the rigors of retaliation.

DAYTON, *(Ohio) Feb. 8.*

INDIAN COUNCIL.

Last Friday 50 or 60 Indians (of which number are about 20 chiefs) arrived at this place to join in Council with Gen. Harrison. Indisposition has prevented the gen. from attending as soon as was expected. Mr. Johnston Indian agent, proceeded with the chiefs to the ultimate object of the council on Sunday. The following tribes were represented in the council.

Shawanoese, Wyandots, Senecas, Miamies, Potawatimies, Ottawas and Kickapoos.

In consequence of the foregoing information, I have understood that Gen. Mead has ordered 2000 of the militia of this brigade to hold themselves in readiness to march at a moment's warning. We have here 150 regular soldiers; about 600 militia, and the whole efficient force of the fleet 150 or 200 sailors.

It is well known, that the British have a sufficient number of boats at Long Point, (about 30 miles across the Lake from this place) to transport their troops, as soon as the Lake is clear of ice.

The fleet is moored in the Little Bason, two miles from town. Captain Elliott has erected a block-house, said to be the strongest in the United States, on the Peninsula, so as to protect the shipping.

February 28.

Nothing of importance has occurred since my last. The military are busily engaged in making preparations to repel any attack which the British may make on this place. It will be impossible for the enemy to cross in boats from Long Point, before the middle of April, about which time the Lake is generally clear of ice. The weather is at present intensely cold.

Our last accounts from Harrisburgh, state, that the legislature were canvassing the merits of persons to supply Mr. Leib's place in the Senate of the United States. Jonathan Roberts, a federalist, and Jacob Bucher, a democrat, were the only persons mentioned.

John Binns is wonderfully wrath at the appointment of Michael Leib Postmaster of Philadelphia. We would ask master Binns, if he is acquainted with a certain *Tenant of Twenty One Jails*, who, a few years ago was appointed Aid-de-Camp to the Commander in Chief of the Militia of Pennsylvania—and which of these two acts is most disgraceful and infamous?

GIDEON GRAINGER, Postmaster General, has been dismissed from office by the President of the United States. He received the following note from the President on the 26th ult.

"SIR, *your services are no longer required in the post office department.—You will on the receipt of this, consider yourself dismissed.*"

In the last number for February of the Analectic Magazine, a monthly publication conducted by Washington Irving, Esq. of New-York, the author of Salmagundi and of Knickerbocker's history of New-York, we read the following article:

"We have just received the first number of a scientific and literary work, entitled the *Western Gleaner*, published monthly at Pittsburgh, and edited by C. F. Aigster, M. D. It is with great pleasure that we hail this proof of the advancement of science and learning in this interesting portion of the union. The prospectus of the editor breathes the liberal and truly national spirit that should govern every work of the kind; the contents of his first number are highly satisfactory, and if he steadfastly adheres to the impartial plan he has laid down, and executes it with the ability of which he has already given tokens; it cannot fail to redound to his own credit, and the advantage of this western country."

From the Philadelphia True American.

Since the declaration of war against G. B. the administration of the U. S. have borrowed, on loan, the following enormous sums:

1812—a loan of - -	10,184,709
1813—a loan of - -	22,461,977
1814—a loan proposed, of -	29,000,000
	$ 57,656,677
1812—treasury notes issued,	5,000,000
1813—do do	3,930,000
1814—more treasury notes,	5,000,000
Whole amount $	71,586,677

SEVENTY ONE MILLIONS FIVE HUNDRED & EIGHTY-SIX THOUSAND SIX HUNDRED & SEVENTY-SEVEN DOLLARS—is paying dear, very dear, for a WAR WHISTLE, particularly as it has been used short of 2 years, and sounded no notes not disgraceful to the Country, excepting in a few instances on the ocean. Besides all this, what will the people say, when they are told that the whole of the *Gold and Silver* in the U. S. is computed at not more than 26 million of dolls.

A STRIKING CONTRAST.

On examining the public records, it appears, that the whole expenditures of the public monies, during the 12 years administration of Washington & Adams, amounted only to $ 94,633,959.

The estimate of Expenses, for the current year 1814, as reported to Congress by Mr. Acting-secretary Jones, is $ 57,780,000.

Adding to this sum, the payments on the public debt, which were provided for and discharged during the Federal administrations, and which are omitted to be provided for in the expenditure of this year, it will appear that our present Rulers spend in one year, as much of the people's money, as our former rulers did in 12, although the Navy, which should constitute our bulwark of safety, was on a more respectable footing then than now.

FROM OUR CORRESPONDENT.

ERIE, *February 24, 1814.*

The following is a copy of a letter received here, on Tuesday last, in five days by express from Sackett's Harbour.

SIR,

I have the honor to state to you that information has this day been received at this post, which can be depended upon, and which I am instructed by Maj. Gen. Brown to communicate to you by express, "That 1500 regular British troops, and 500 sailors, have left Kingston, their destination supposed to be to endeavor to destroy our fleet on the Upper Lake." Five hundred more troops are said to be on the route to Kingston from below.

I have the honor to be, sir,

With great respect,

Your obedient servant,

JAMES BURN, *Col.*

2d Regt. U. S. Lt. Dragoons, commanding Cantonment.

Sackett's Harbour, 17th Feb. 1814.

To Officer commanding U. States troops at Erie.

DIED, at Butler, about ten days ago, THOMAS COLLINS, Esq. formerly of this town.

—— in this town, on Sunday last, Mrs. SARAH TANNEHILL, widow of the late Mr. Zachariah A. Tannehill.

—— at Fort Fayette, on the morning of the 22d ult. EDWARD WISE BUCHAN, Esq. aged 39 years, Lieut. and Commander in his Britannic Majesty's naval service.

On the following day his remains were interred with military nonors in the Episcopal church yard, attended by a very numerous concourse of the citizens of Pittsburgh.

Lieut. Buchan commanded the schr. Lady Prevost in the action of the 10th of September, 1813, on Lake Erie, and was so severely wounded as ultimately to have occasioned his death. He had been in his Britannic Majesty's navy 25 years, during which time he had seen much service. He was a native of Scotland, and has left there a wife and family.

Of manners mild, a mind devoid of art,
In him were join'd the brave and feeling heart;
To all his friends his mem'ry must be dear,
And e'en his foes will drop a friendly tear.

Cromwell's warehouse, a number of shops are erected thereon, and on Front street it contains 60 feet, the corner occupied by Mr. Samuel Smith as a store, and is a well known stand. APPROVED
FAMILY MEDICINES.

Which are celebrated for the cure of most diseases to which the human body is liable.

Prepared only by the sole proprietor,

T. W. DYOTT, M. D.

Grandson of the late Dr. Robertson,

OF EDINBURG,

SOLD WHOLESALE AND RETAIL,

IN PHILADELPHIA ONLY,

At his Family Medicine Warehouse,

North east corner of Race and north Second Streets.

DR. ROBERTSON'S

Celebrated Stomachic Elixir of Health:

PRICE $1 and fifty cents; one of the most efficacious medicines ever offered to the public, for the speedy relief and cure of obstinate coughs, colds, consumptions, the hooping cough, asthmas, pains and wind in the stomach, removing habitual costiveness, sickness at the stomach, dysentaries, cholera morbus, severe gripings, the summer griping complaint in children, &c. &c.

DR. ROBINSON'S

VEGETABLE NERVOUS CORDIAL,

Or, Nature's Grand Restorative,

Price one dollar and fifty cents.

Is confidently recommended, as the most efficacious medicine, for the speedy relief and cure of all nervous complaints, attended with inward weakness, depression of the spirits, head-ache, tremor, faintness, hysteric fits, debility, seminal weakness, gleets, and various complaints resulting from secret impropriety of youth and dissipated habits, residence in warm climates, the immoderate use of tea, the unskillful or excessive use of mercury, so often destructive to the human frame, diseases peculiar to females at a certain period of life, fluor albus, barrenness, &c.

Under the denomination of nervous disorders are included several diseases of the most dangerous kind, and are so various, that a volume would hardly suffice to complete a description of them.—It pervades, with its baleful influence the whole nervous system, writhing the heart with inexpressible anguish, and exciting the most dreadful suggestions of horror and despair. To this demon have thousands fallen a sacrifice, in the direful transports of its rage.

The most common symptoms of its commencement, are weakness, flatulence, palpitations, watchfulness, drowsiness after eating, timidity, flashes of heat and cold, numbness, cramp, giddiness, pains in the head, back and lines, hickup, difficulty of respiration and deglutition, anxiety, dry cough, &c.

Dr. Robertson's celebrated Gout and Rheumatic Drops, (price two dollars)—a safe and effectual cure for the gout, rheumatism, lumbago, stone and gravel, swelling & weakness of the joints, sprains, bruises, and all kinds of green wounds, the cramp, pains in the head, face and body. stiffness in the neck, chilblains, frozen limbs, &c.

Dr. Robertson's patent stomachic Bitters, (price one dollar) which are celedrated for strengthening weak stomachs, increasing the appetite and a certain preventive and cure for the fever and ague &c. &c.

For the fever and ague, a malady so prevalent throughout the southern states and so afflicting to families residing in all low countries, redundant with marshes, lakes, stagnated pools, rivers, etc. etc. These celebrated and universally esteemed bitters, have surpassed any remedy ever administered, for the relief and cure of that most obstinate oppressor of the human frame, numberless instances of their efficacy have been testified, after the barks, and various other extolled prescriptions failed, they proved successful, to the admiration of those who experienced and witnessed their happy effects.

Dr. Robertson's infallible Worm Destroying Lozenges, a medicine highly necessary to be kept in all families—price 50 cents.

SYMPTOMS.

The common symptoms of the Worms are, paleness of the countenance, at other times flushing of the face, itching of the nose and about the seat, starting and grinding of the teeth in sleep, swelling of the upper lip, the appetite sometimes bad, at other times voracious; looseness, disagreeable breath, a hard swelled belly, great thirst, the urine frothy, and sometimes of a whitish colour, griping or cholic pains, an involuntary discharge of saliva, especially when asleep; frequent pains in the side, with a dry cough, and unequal pulse; palpitations of the heart, swoonings, cold sweats, palsy, epileptic fits, etc. etc.

Those numberless medicines are extolled for expelling and killing worms, none are equal in efficacy to Dr. Robertson's WORM DESTROYING LOZENGES, they are mild in their operation, and may be given to the youngest infant with safety.

Dr. Dyott's Anti-bilious Pills—for the prevention and cure of bilious and malignant fevers. Price 25 cents; large boxes 50 cents.

These pills, if timely administered, will remove the causes which commonly produce the yellow fever, bilious fevers, ague and fever, cholic pains, flatulencies, indigestions, costiveness, hypocondrics and hysteric complaints, stranguary, gravel, rheumatism and gout.

They are peculiarly serviceable in female disorders, and especially in the removal of those obstructions which are the great source of their complaints at certain periods, they possess this eminent advantage over most other purgatives, that while they operate gently, they produce neither costiveness, debility, nor too great excitement, whenever there is a predisposition to a disease, arising from marsh effluvia, a too copious use of ardent spirits, or a vitiated state of the bile tey are sureto relievn.

Dr. Dyott's Patete Itch Ointment—for pleasantness, safety, expedition, ease and certainty, is infinitely superior to any other medicine, for the cure of that most disagreeable and tormenting disorder, the ITCH. Price 50 cents per box.

Dr. Dyott's Infaltible ToothAche Drops—(Price 50 cents.)

Circassian Eye Water, celebrated for curing most disorders of the eyes—(Price 50 cents.)

FOR SALE.

BIG SPRING MILLS,

On Blue River, Indiana Territory.

THE subscriber offers the above property for sale, to which is attached upwards of 800 acres of first rate land, the greater part of which is river bottom, covered with walnut, cherry, poplar and oak timber; there are 50 acres now under cultivation, and 70 acres (on which the timber has lately been deadened) that may be prepared for cultivation at a small expence; there is also on the premises a stone house 40 feet by 20, which is yet unfinished, and a young apple orchard of about 120 engrafted trees; the grist and saw mill are much out of order, but owing to the excellence of the mill seat and the superabundance of water even in the driest seasons, added to its vicinity to a rich and populous settlement, it is presumed it will be worthy the attention of the industrious farmer.

The distance from this mill seat to Louisville, (Ken.) in a direct line, is 20 miles, and six miles west of Corydon, the seat of government of the territory. When blue river is high, boats may be loaded at the mill, and descend with safety to the Ohio, a distance of twelve miles. For terms apply to *George Wallace*, in Pittsburgh, or to *Waller Taylor*, at Jeffersonville, (Ind. Ter.) who can give a more particular description.

Have just received a fresh supply of

PAUL'S PATENT COLUMBIAN

OIL.

THIS valuable Medicine having been established upwards of three years, and its virtues sufficiently exemplified by the number of respecta e certificates repeatedly laid before th: public, it therefore now only become necessary for the information of those w.o may not have had an opportunity of perusing the certificates, to detail a few of the cases wherein the Oil has been so wonderfully efficacious. Printed handbills containing certificates, may be always had, gratis, from the Agents, who will keep a constant supply of the Oil.

The following are the complaints in which the Columbian Oil has been found so efficacious, and rarely ever fails of effecting a cure, viz——Rheumatism, Consumption, Pains in any part of the body but particularly in the back and breast, Colds and Coughs, Tooth-ache, Spleen, Pleurisies, Cholic, Cramps, external and internal bruises, Sprains and Flesh Wounds, Scalds and Burns, Dysentery or Bloody Flux, Croup and the Summer Complaint in Children, and in weak stomach, that is caused by indigestion, a constant sinking and loss of appetite, it will act as a powerful bracer to the relaxed fibre and restore it to its proper tone, Whooping Cough and Mumps.

It seems as though nature ranked it the first of the class of all pectorals and expectorals for the relief of the breast and lungs, as it scarcely ever fails of removing obstruction in either, particularly those who are troubled with Phthisic and Asthmatic complaints, who in the act of walking fast, stoop[illegible] down are almost suffocated, half a teaspoonful of the Columbian Oil will render some relief instantaneously, and if continued agreeably to the directions in such cases, will prove a radical cure by producing the full power of inflation to the lungs and free expansion of the breast.

To the Public.—In order to prevent deception, the public are cautioned not to purchase any Oil that may be offered as "Paul's Patent Columbian Oil," that does not bear the true characteristics as published by my principal and sole agent Doctor John Love, of Baltimore.

PENMANSHIP.

"Writing is universally admitted to be of all arts that which is most useful to society. It is the soul of commerce, the picture of the past, the regulator of the future, and messenger of thought."

MR. VINCENT,

GRATEFULLY returns his thanks to his friends and the publick for the liberal support he has received in his line of profession, since his establishment in Pittsburgh. He flatters himself that the proficiency of his scholars, will give evidence of the superiority of his mode of teaching the art of penmanship over that heretofore adopted; that he is able in the short period of 15 lessons, with a pupil of moderate capacity, to give him a complete knowledge of this art; that there is much less time spent in acquiring a correct knowledge of it; that it is therefore cheaper; and the writing of his scholars i more elegant and uniform, & free from that stiffnes which arises out of the common mode of teaching.

He also informs them that his school will open on Monday, Jan. 31st inst. over the store of R. Bowen, & Co. in Market street, where he will receive pupils, and endeavor to give satisfaction to all who may favor him with their patronage. He will also give lessons out of school hours, to individuals or private families.

DOCTOR HANDY'S,
WORM DESTROYING
LOZENGES,

A safe and efficacious Medicine for destroying and bringing away Worms.

MAY be used with safety by children of any age, or as common physic by the most delicate constitution, in any climate, without restraint of diet, or the smallest danger from cold. It may be given with advantage after the small-pox or measles; or as a family medicine, in any case where physic is necessary. The most frequent seat of worms in the human body, is the intestinal tube; but occasionally they have been found in almost every other part of the body.

Some very extraordinary cases of *Worms*, of an unusual form and appearance, being brought away by these Lozenges, have been made public in England, where the rapid sale of the medicine has exceeded any thing of the kind ever known before; and has also proved, to a demonstration, its approved superiority, as an athelminthick, to the numerous puffed-up, useless nostrums, which are daily advertised in the newspapers.

A single dose of this *valuable Medicine* has often been known to remove half a pot-full of the Teres or Round Worms.

A few doses are generally sufficient to remove the Ascarides, a small white worm, the seat of which is either the stomach or rectum.

Even the *Tape Worm*, at all times the most difficult to destroy, may, by persevering in the frequent use of this medicine, be totally removed in the course of a few weeks.

To select cases, with the names of people who are not known here, and living at a great distance, would be useless, and take up too much of the reader's time We shall therefore only observe, for the benefit of those who are unacquainted with the symptoms of worms, that they are known or suspected to exist by a pain in the stomach, attended with a sudden depression of spirits before eating; at other times, the belly is hard, painful and distended with wind—costiveness, head-ache, and trembling of the limbs, with a sense of something rising in the throat—pale complexion and emaciated body, with weakness and irregular appetite—convulsive, epileptic, or falling fits—pains in the back and side, and frequent itching of the nose, and sometimes of the anus. The above, and a long train of afflicting diseases may all be occasioned by worms, which are much oftener the cause of death than is commonly believed.

The above valuable Medicine is sold only by

J. P. & J. W. SKELTON,

at their wholesale and retail Drug Store, at the corner of Wood and Third Streets, Pittsburgh.

CRAMER, SPEAR & EICHBAUM,

PRINTERS AND BOOKSELLERS,

HAVE JUST PUBLISHED

Views of Louisiana,

BY

H. M. BRACKENRIDGE, ESQ.

WITH AN APPENDIX,

Containing amongst other articles, a Journal of a Voyage, by the Author, of near two thousand miles up the Missouri: and a collection of interest-facts relative to the late Earthquake.

IN this work, there will be much to gratify the curious and inquisitive; but it will be principally useful, as a compend, of such information, as may be desired, by those who are disposed to emigrate. It is the result of observations made by the author, within the last two years, during which time he had occasion to traverse the most interesting parts both of Upper and Lower Louisiana. A considerable part of what has been put into our hands, by him, has already appeared in eleven numbers, under the head of "Sketches of Louisiana," in the Louisiana Gazette, published by Mr. Joseph Charless, St. Louis: and notwithstanding the limited circulation, and remoteness of this paper, such of the numbers, as caught the public eye, owing to the interesting nature of the subjects, were received with approbation. The writer's object appears to have been to condense, in a narrow compass, much useful and interesting information. The publication of a part of this description, in the country described, necessarily gave rise to useful corrections, and led to the discovery of fact not generally known: In this way, giving a stamp of authenticity, which it could not otherwise so well obtain.

BRIGHTON IRON WORKS,

FOR SALE.

THIS elegant establishment consists of a *Furnace, Forge, Grist* and *Saw Mill*, together with extensive Coal, Store and Dwelling Houses, situate at the middle falls of Big Beaver creek, one mile from navigable water, 3 miles from the Ohio, 3 miles from the town of Beaver, and 28 miles from Pittsburgh. The Grist and Saw Mill are now usefully employed, and can be made very productive at a small expence. The Furnace and Forge are equal to any in the western country. The scite for water works comprises advantages equal if not superior to any on the Brandywine. The adjacent country abounds with ore, fuel and provisions, and the facility of transportation by water from the works to every part of the western country promises a sure and steady market for all its productions. The works are well supplied with first rate forge and furnace hands. The forge is now in operation, and the usual number of hands and teams are constantly employed in providing stock for a new blast, which it is intended shall take place about the 1st of March next, whether sold or not. The casting house is spacious and well supplied with flasks, patterns, and other requisite articles.—Possession can be given either before or after the first of March, as may be agreed upon, a fair price being given for the stock on hand.

ALSO FOR SALE.

A valuable Tract of Land on the east side of the creek, opposite the Iron Works, affording a scite for water works equal to any on the creek, on which is erected a Grist Mill and two Dwelling Houses, and a small Farm opened.—The whole of this property will be sold together or separate as may best suit the purchaser, and the terms made easy.

BRASS FOUNDERY.

THE subscriber takes the liberty to inform his friends and the public in general, that having procured some of the most experienced workmen from the city of Baltimore; and having entered largely in the BRASS FOUNDERY business, he flatters himself, to be able to furnish any castings of Copper or Brass upon as good terms as they can be obtained either in Baltimore or Philadelphia—such as

Andirons of the newest fashions,
Candlesticks, Carpet Rods,
Still Cocks, Rivets,
Salder, Clock Castings,
Bells of any description,
And all kinds of Castings of Machinery,
All kinds of Copper, Tin and Sheet Iron Work,

Upon as good terms as they can be had in the place. A very handsome assortment of TIN WARES—on hand, a few large STILLS, of the best quality, at one dollar per gallon. Coppersmiths, Merchants, and others, who will favor him with their orders, for any thing in the above branches, shall be punctually and promptly attended to.

N. B. The highest price in Cash, will be given for Old Copper, Brass & Pewter.

LOTS FOR SALE.

A FEW Town and Out Lots are yet for Sale in that part of Birmingham, which is called Sidneyville, situate on the handsome plain on the south side of the Monongahela river, nearly opposite to Pittsburgh. Let Mechanicks and manufacturers who wish to purchase take a view of the situation of this place, and compare its advantages with those of any other situation in and about Pittsburgh, and their own interest will compel them to judge correctly of the importance of early securing a Lot in this place. The prices of these Lots are moderate; less, in fact, than the ground rent for one year of other lots of the same size about Pittsburgh. How shall we account for the folly of taking perpetual leases, at an enormous rent, of ground not more advantageously situated, while any of these Lots can be purchased at their present prices? A plan can be seen, and terms of Sale made known, by applying to

JOHN M'DONALD

Wood Street.

Pittsburgh, March 17, 1813.

WAGGONS WANTED.

THE subscriber wishes to employ from 30 to 50 waggons, for 3 or 4 trips to the Iron Works, near Belfont, Centre co. and would be anxious to engage 20 or 30 out of the above number to haul by the year. A very considerable advance will be made on the former rate of carriage. This, added to the very low price of feed this season, holds out greater inducements to embark in this business, than at any former period.

Application to me here; on which I will give my orders, and will engage to pay for any delay which may arise to the waggoners at the different forges.
